PROFESSIONAL SUMMARY

I'm a Full Stack Developer with hands-on experience building production-ready web applications using the MERN stack and Next.js. Experienced in developing secure authentication systems, REST APIs, AI-powered applications, and scalable backend services through personal projects and internship experience. Passionate about backend engineering, system design, and AI integration, with a strong focus on writing clean, maintainable, and scalable code. Seeking an opportunity to contribute to real-world software products while continuously growing as a software engineer.

PROFESSIONAL EXPERIENCE

Backend Developer Intern | Odd Kind

April 2026 – Present

Working as a Backend Developer Intern at Odd Kind, building and maintaining backend APIs, authentication systems and database integrations while gaining hands-on experience in scalable web application development and backend best practices.

Frontend Developer Intern, Sane Infotech

August 2025 – February 2026

Worked as a Frontend Developer Intern at Sane Infotech Guwahati, contributing to a SaaS product using the MERN stack by building responsive React components and supporting Node.js/Express backend features.
